Purpose

Demonstrate the applicability of the Missions and Means Framework for warfare representation.

Agenda

- **Purpose**
- **MMF applied to operational scenario**

MMF Application - Situation

Road to War

- **Radical elements form new government, seek to force recognition by UN as legitimate government.**
- **Legitimate, pro-Western Government of Orangeland is overthrown by radical elements and forced into exile.**
- **Majority of Orangeland's conventional military forces are loyal to new government. Orangeland invades neighboring country of Blueland.**
- **United States and its coalition partners believe national interests and regional stability are threatened. They take military action to drive Orangeland forces from Blueland; remove rebel government from power; restore legitimate, pro-Western government; stabilize region; and protect U.S. and coalition vital interests.**

Current Situation

- **Coalition forces have commenced offensive ground operations in the region to drive Orangeland forces out of Blueland and continue attacking to isolate rebel government leadership inside capital of Orangeland.**

Mission

- **CJTF intends to isolate rebel government leadership in the capital by defeating majority of conventional forces well outside the capital and preventing them from reinforcing security forces protecting the rebel leadership inside the capital.**
